OUR OPERATION STRIVES TO KEEP YOU OPERATIONAL

INDUSTRIAL VALVE

TIGHT BUDGET? SHORT DEADLINE? IMPOSSIBLE VALVE JOB?

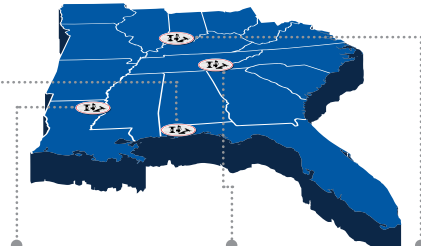

WE CAN HANDLE THE PRESSURE.

Time, quality and service are critical when your plant is not operational. We measure turnaround time in hours rather than days or weeks, using the highest quality valves, installed by the most experienced technicians. At **Industrial Valve** we offer:

- 40 YEARS OF EXPERIENCE
- PRIVATELY OWNED OPERATION
- COMPANY COMMITMENT TO SERVING OUR CUSTOMERS
- OVER 300 EMPLOYEES COMPANY-WIDE

NEW VALVE SALES

Industrial Valve's New Valve Sales Division is committed to meeting your needs by supplying you with the right valve at the right price.

This is why we offer comprehensive lines of safety and relief valves from Crosby, Anderson Greenwood, Kunkle and Varec. These include a large selection of direct spring and pilot-operated safety and safety relief valves. We will have the valve that meets your needs and fits your budget.

When you purchase from Industrial Valve, you are purchasing from dedicated professionals who will make sure that you are completely satisfied. For more information on our complete line of new safety and pilot-operated valves, give us a call or visit our website.

- HUGE INVENTORY, CONSTANTLY UPDATED
- TRAINED EXPERTS TO CUSTOMIZE YOUR VALVE TO YOUR EXACT SPECIFICATIONS
- DEDICATED PROFESSIONALS COMMITTED TO MEETING YOUR NEEDS
- AUTHORIZED PRESSURE MANAGEMENT CENTER

“BETTER-THAN-NEW” SURPLUS VALVES AND ACTUATORS

What do we mean when we say “better-than-new?” Just like newly manufactured valves, our advantage valves carry a one year warranty. However, unlike brand new valves, our “better-than-new” valves have been thoroughly tested and are available at a substantially reduced price. Most importantly, they are available now – not a week's or even a month's wait for a newly manufactured valve.

NEW VALVE	BETTER-THAN-NEW VALVES
6" 300# GATE VALVE	6" 300# GATE VALVE
WARRANTY: 1 YEAR	WARRANTY: 1 YEAR
LONG DELIVERY TIME (sometimes weeks)	DELIVERY IN 24 HOURS OR LESS (in most cases)
RANDOM LOT TESTING AND INSPECTION	ALL VALVES ARE TESTED AND INSPECTED TO ANSI STANDARDS
TEST REPORT: OPTIONAL, OFTEN FOR ADDED FEES	TEST REPORT: STANDARD, NO ADDITIONAL FEE

With our stock of hard-to-find valves, you can often avoid having to make costly alterations in your plant to accommodate a brand new valve.

VALVE REPAIRS AND SERVICE

PRESSURE RELIEF and PILOT OPERATED SAFETY VALVES
VR certified, all pressure classes and sizes, in-line and shop repairs, along with in-line safety valve testing capabilities.

CONTROL VALVES
Repairs on all types and sizes. Masonellan, Fisher, Samson, Copes Vulcan, etc. In-line and shop repairs, in-line diagnostic testing.

ACTUATORS
Factory trained technicians, Limitorque, Rotork, etc.

MANUAL VALVE
Gate, Globe, Check, Butterfly, and Ball Valves. In-line and shop capabilities.

FIELD SERVICE
Mobile units of different sizes and capabilities for servicing your needs at your plant site.

VALVE CLEANING
Oil-free, grease-free or oxygen service/chlorine service.

VMS (Valve Management System)
Track your valve, testing, and maintenance through a secure login, web-based application.

BARCODING
Expedites orders with accuracy. Our barcoding process also allows us to know the full history of that individual item.
